Montgomery County System of Care

Your Voice Matters

Montgomery County Community Supports for Youth and Families

Mobile Crisis Support **1-855-634-4673**

Provided by Access Services

This program has a crisis hotline in Montgomery County for children and adolescents up to 18 years of age. It helps children and families in crisis situations. The program also has resources to help them in the future. This is available 24 hours a day and seven days a week. Crisis is not simply the moment when things become intolerable. Crises build over time, and often can be recognized and managed in advance.

High Fidelity Wraparound (HiFi) **1(866) 240-3010**

Provided by Child and Family Focus

HiFi utilizes a national model to bring change to the lives of families with children with complex needs. It is a family-driven planning process that puts families and youth in charge of their own plans, by partnering with them to use their voice, strengths, and supports to build teams that keep children in their homes with fewer professionals and more community supports.

Family Mentor **(267) 507-3486**

Provided by the Mental Health Association of Southeastern Pennsylvania

This is a group of parents and others interested in children's mental health issues. It links the systems that serve children. It is run by parents. This helps parents and other family members by providing support, information, referrals, and links to other parents and organizations.

Administrative Case Management (ACM)*: ACM is a short-term program available at the Community Behavioral Health Centers located across the County. ACM provides assistance to link families and youth to MA and other services and supports.

Blended Case Management (BCM)*: BCM is a community based service that partners with children and their families to maximize their potential for independent community living, improve educational/vocational status, increase social support networks, and reduce psychiatric hospitalizations. This is done through ongoing assessment of needs and subsequent assistance with linkage to resources within the community.

**Both ACM & BCM are provided by the following agencies in various locations throughout the County:*
