

Lower Moreland Township

School District

What am I most passionate about?
What careers match my passions and interests?

Today we will:

- identify passions and interests
- identify careers related to your passions
- develop a goal related to your passions

GENIUS HOUR

If you can't figure out your purpose figure out your passion or your partner. You'll lead you right into your purpose.

WHAT'S YOUR PASSION?

Mrs. Meyers

GIFTED

PROGRAMS

Our Philosophy

We believe that all children require and deserve opportunities to realize their intellectual potential according to their individual abilities and needs. *In support of this belief*, the District will pursue a rigorous academic program utilizing differentiation of instruction, flexible grouping patterns, and enrichment and/or acceleration where appropriate, to provide children with challenges that correspond to their demonstrated pace and level of learning. Gifted students will be given opportunities to interact with students of similar abilities so that they may delve into questions, subjects, and issues in depth. They will be given opportunities to develop higher-level thinking, critical thinking, divergent thinking, problem solving, communication, leadership, group dynamics, research, and independent study skills. This philosophy will be reflected in an environment that is sensitive to individual interests and social and emotional needs.

Lower Moreland Township School District,

in accordance with Chapter 16: Special Education for Gifted Students, provides appropriate education for each gifted student based on the unique needs of the student, not solely on student classification. Further, the Lower Moreland menu of options for gifted students enables them to participate in acceleration and/or enrichment programs, as appropriate, and to receive services according to their intellectual and academic abilities and needs.

Services and Programs

For more information on the Gifted Program

Please visit us at:
