M. Leahy & Associates Disability Life Planning

Four Tower Bridge
200 Bar Harbor Drive
West Conshohocken, PA 19428
www.leahylifeplan.com

M. Leahy & Associates address these concerns. Disability Life Planning is a process to create and implement a road map for the future. The person with a disability leads the charge with supports. Our goal is to develop a foundation that is not exclusively dependent on governmental systems, but uses them as a backbone to produce a lifetime of guidance. The plan takes advantage of the person's community for a life full of possibilities. A person-centered plan integrates a team who are genuinely concerned about the person with special needs: both family and non-family members. It is revisited on an ongoing basis. Life is full of change; this is no different for individuals with special needs. The people in your life at 16 are different than the ones at 40. Generating a team that will evolve with your child's future will help your child grow into an adult who is a part of a larger community.
