LOWER MORELAND HIGH SCHOOL

On Tuesday, March 21st, wear your most colorful, spunky socks in celebration of people with Down Syndrome (DS) and the many ways that they make our world brighter. People all around the world will be celebrating with you!

Why rock your socks on 3.21? People with DS have 3 copies of the 21st chromosome, while most people have just have 2 copies. Down syndrome can affect how a person looks, speaks and how he or she learns in school. Students with DS may need extra time to do their work or have helpers, but they can learn the same skills as their classmates.

When you get to know people with Down Syndrome, you will find that they are more like you that they are different! They play on sports teams, are artistic, play instruments and join clubs at schools. They want to have fun and make new friends, just like all kids do.

Please help support the ***2017 Lower Moreland Baseball Team*** by purchasing a coupon card from one of the players. Coupon cards have deals to local establishments that can be used for savings. Find a baseball player to find out more today!
