Re: FirstView Bus App
Date: November 12, 2021

Lower Moreland Township School District has partnered with FirstView which is an app for parents that allows for direct access to the status of your child's bus. FirstView GPS tracks the bus on a map and allows you to set up a customizable geo-fence around your pick-up/drop-off location, so you can be alerted when the bus is close. You can customize your notifications on the app. This is a free app for parents that can be downloaded from Google Play or the Apple App Store.

Here are the instructions for getting started with the app: [FirstView Bus App](#). The instruction sheet has the district code and a list of the bus routes that are needed to register. Using this app is optional. The district will continue to send Connect Ed notifications about the status of bus changes or significant delays.
